PROFESSIONAL SUMMARY

Motivated Cloud & DevOps Engineer with hands-on experience in **AWS, Linux, Docker, Kubernetes, Terraform, and CI/CD pipelines**. Skilled in deploying scalable cloud applications, automating workflows, and monitoring system performance. Quick learner with strong problem-solving skills, eager to contribute to building **reliable and secure cloud infrastructure**.

SKILLS

Cloud Platforms: Amazon Web Services (EC2, S3, IAM, VPC, EKS, CloudWatch, ECS, CloudFront,RDS)

Operating Systems: Linux (Ubuntu), Shell Scripting

Containerization & Orchestration: Docker, Kubernetes

Infrastructure as Code (IaC): Terraform

CI/CD Tools: Jenkins, ArgoCD

Soft Skills: Team Collaboration, Critical Thinking, Adaptability, Continuous Learning Mindset.

EDUCATION

University of Commerce College SFS, Jaipur, Rajasthan

Bachelor of Computer Application   **2021-2024**

CGPA : 7.5

New Public Academy School, Jaipur, Rajasthan

12th standard **-** 90.20%   **2020-2021**

10th standard - 73%   **2019-2020**

PROJECTS

1. [Cloud-Native E-Commerce Platform (Onsko ECommerce product)](#)

- Built a **cloud-native 3-tier application** (React, Node.js, MongoDB) deployed on **AWS EKS (Kubernetes)**.
- Automated **infrastructure provisioning** using **Terraform (IaC)** and implemented **CI/CD pipelines** with Jenkins + ArgoCD.
- Used **Docker** for containerization and AWS services (EKS, EC2, S3, Secrets Manager) for scalable and secure deployment.
- Integrated **Prometheus + Grafana** for monitoring and alerting.
  Technologies: AWS, Docker, Kubernetes, Terraform, Jenkins, ArgoCD, Prometheus, Grafana, React, Node.js, MongoDB

2. [Automated AWS Cloud Cost Tracker & Dashboard](#)

- Developed a **real-time AWS cost monitoring system** with alerts using CloudWatch & SNS.
- Built a **QuickSight dashboard** to track daily and weekly spending.
- Automated **weekly reports** with Lambda and stored results in S3.
  Technologies: AWS (CloudWatch, SNS, Lambda, S3, QuickSight), Python

EXPERIENCE

Frontend Intern – TLF Talentforge

May 2025 – Aug 2025 – Jaipur / Remote

- Developed features for a **student learning platform** using HTML, CSS, JavaScript/React to enhance user experience.
- Built **responsive and accessible web pages** compatible across devices.
- Integrated **APIs for CRUD operations**, connecting frontend with backend services.
- Maintained **version control with Git/GitHub**, documented workflows, and assisted in testing/debugging.

CERTIFICATIONS

Certification: [Backend Development](#)
 Platform: [Sheryians Coding School](#) – July 2024 - Jan 2025

- Learned and implemented **RESTful APIs, JWT authentication & authorization, Redis, Socket.IO**, and **MongoDB Atlas, Caching**
